MATERIAL SAFETY AND CONFORMANCE:

Product Safety

- The raw materials used in the construction of this product have been declared safe for food contact applications and complies with the FDA regulation 177.1520 when used unmodified and according to good manufacturing practices for food contact applications.

Critical Applications

- This product cannot be used for holding food during cooking.
- Products with high acidity level should be monitored after packing.
- Excessive moisture to the (external) surface of the material may have a harmful impact to the barrier property of the product.
- For any new application it is recommended to first sample material to determine suitability.

Storage Conditions

- Store in a dry, ventilated area out of direct sunlight and off the floor.
- Ideal storage conditions: 10°C to 25°C.
- Pouches should be used within one year of manufacture.

Note:

Maverick Packaging does not offer any guarantee and does not accept any liability arising out of the use of the information contained herein. It remains the responsibility of the User to ensure the suitability of the product for the particular use intended.
